Risfath Ahamed
Software Engineer[UG] & Designer

I'm a versatile software engineer and designer, driven by a passion for innovation and user-centric solutions. With a strong foundation in both coding and design, I specialize in crafting seamless and visually appealing digital experiences. My dedication to delivering high-quality work and my ability to bridge the gap between technology and aesthetics set me apart in the industry.

EDUCATION

BSc in Information Technology
Rajarata University of Sri Lanka

04/2022 - Present   *Mihintale*

Courses
- Software Engineering

Diploma in English
Rajarata University of Sri Lanka

01/2019 - 01/2020   *Mihintale*

Courses
- Successfully Completed the Diploma With GPA 3.0

G.C.E A/L Examination
A/JAYA MAHA VIDYALAYA

01/2015 - 10/2020   *Kadandugama*

Courses
- CHEMISTRY
- PHYSICS
- BIOLOGY
- GENERAL ENGLISH

WORK EXPERIENCE

Graphic Designer
IEEE Computer Society Sri Lanka Chapter

01/2022 - Present   *Sri Lanka*
IEEE CS unites global engineers, scientists, and professionals, advancing computer science and technology.

Achievements/Tasks
- Managed and designed graphics for the Chapter's social media platforms, significantly boosting the online presence and engagement.

Contact : Saketha Pulasthi - +94 71 165 1919

Graphic Designer
Zero Plastic National Movement

01/2022 - Present   *Sri Lanka*
Sri Lanka's Largest Environmental Volunteer Organization!

Achievements/Tasks
- Worked as an Content Writer, Translator, Graphic Designer and Volunteer for so Many Projects

Contact : Nishanka De Silva(Founder) - +94 71 690 1094

SKILLS

Photoshop | Canva | Illustrator | Paint | Word

Excel | Power Point | Lightroom | Davinsi Resolve

Graphic Design | UI/UX Design | Game Development

PERSONAL PROJECTS

University Student Management System (03/2022)
- I developed a school management system using the C++ programming language, implementing Object-Oriented Programming (OOP) concepts. This system allows for the efficient management of various aspects within a school, such as student information, course registration, attendance tracking, and grade recording.

Pharmacy Management System (05/2022)
- I created a pharmacy management system by employing a combination of MySQL for database management and a web-based front-end developed using HTML, CSS, and JavaScript. Additionally, I utilized tools like XAMPP to facilitate server hosting and testing. This project demonstrates my proficiency in integrating multiple technologies to design a comprehensive solution for managing pharmacy operations.

ORGANIZATIONS

ZERO PLASTIC MOVEMENT (01/2023 - Present)
Graphic Designer

AIESEC Rajarata University of Sri Lanka (03/2023 - Present)
